Element -Form - Life

50 % OFF

This painting shows how nature creates order out of potentially random elements. Individual pieces (right down to the cellular level) arranged in a specific manner create form.

Life, however, is the final and magical step

Proudly South African - Cape Mountain Zebra

50 % OFF

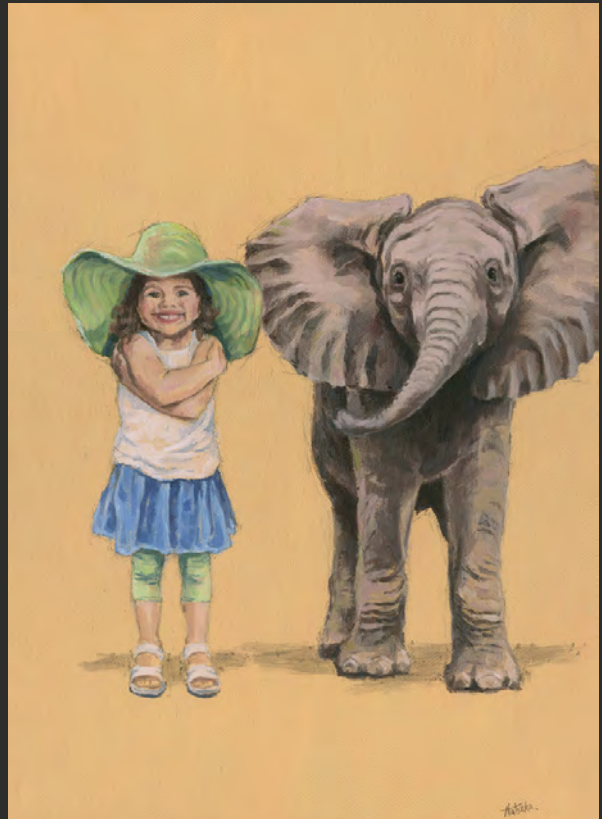

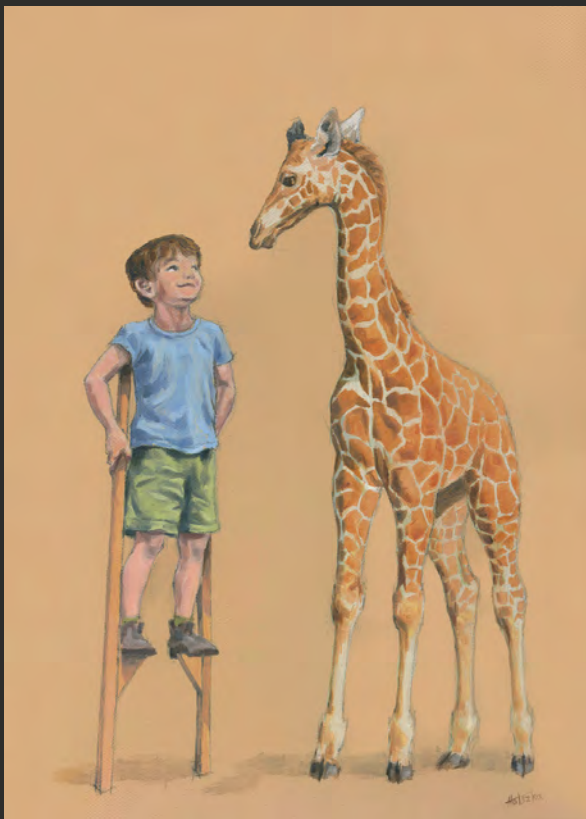

Endemic to South Africa, Cape Mountain Zebra are a wonderful success story thanks to conservation efforts by National Parks, Provincial Reserves and private land owners. From only around 90 individuals remaining in the 1950s, numbers had risen to nearly 3000 by 2014, when they were the subject of my post-doctoral research work.

These are all original paintings done by myself,
Halszka Covarr.

As much as I love working surrounded by each piece that originated from a story within, I am feeling it is time to 'clear my palette', make space for new and enable these pieces to find homes. I am therefore excited to offer significant discounts on this selection of works.

Please feel free to contact me with any questions, I would love to hear from you.
